

HYPERTEC SOLUTIONS PARTNER: FIELD AND MANAGED SERVICE OPERATIONS

WHO WE ARE

◆ Comprehensive Service Expertise

Field and Managed Service Operations combines field services, managed services, and asset lifecycle expertise to deliver end-to-end technology support.

◆ Customer-Centric Approach

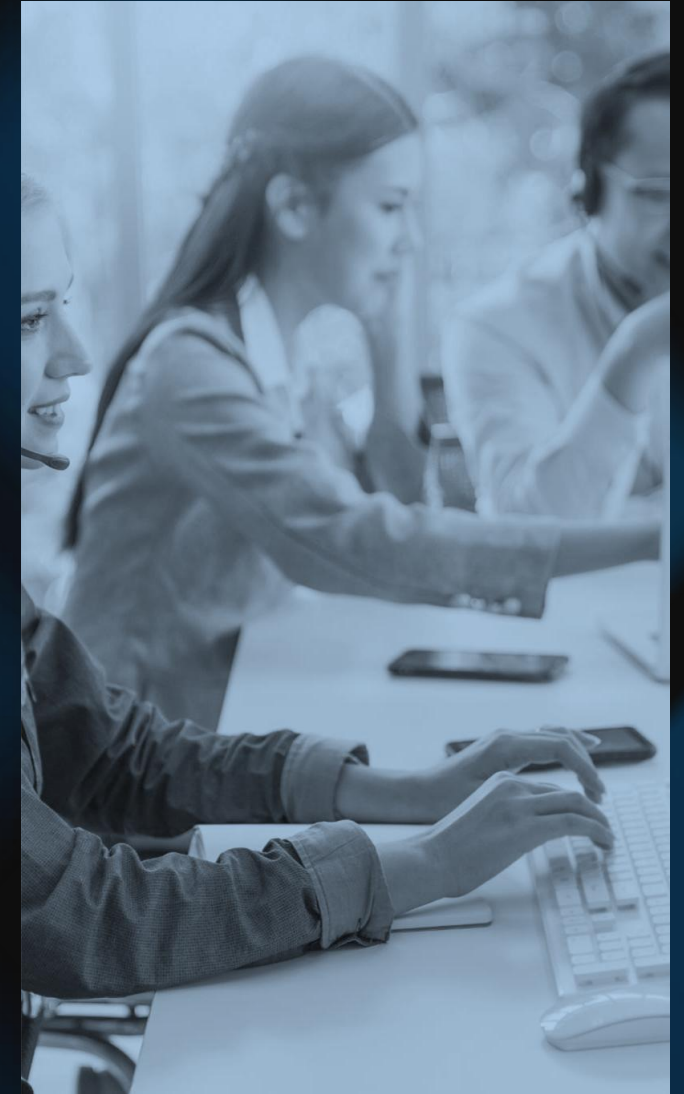

Focused on meaningful interactions, We works closely with IT and business teams for tailored solutions.

◆ Operational Excellence and Reliability

Hypertec Services ensures optimal technology performance with coordinated deployments, Smart Hands, and ongoing support.

◆ Scalable Co-Delivery Model

Flexible partnerships enhance national service capabilities for rapid response and broad geographic reach.

WHAT FIELD & MANAGED SERVICES DELIVERS

◆ Comprehensive IT Lifecycle Services

FMS covers the entire IT lifecycle including installation, operational support, and end-of-life processing for assets.

◆ Structured Cabling Solutions

FMS delivers reliable structured cabling using copper, fiber, and wireless backhaul to support modern networks.

◆ IT Asset Disposition & Compliance

Secure and compliant asset retirement with serialized audits, data sanitization, and environmental responsibility.

◆ Remote Monitoring & Cybersecurity Services

FMS model offers remote monitoring, patch management, and cybersecurity surveys to reduce risk.

SERVICE IS OUR PROMISE

◆ Integrated Service Delivery

FMS provides seamless field services, technical support, managed services, and lifecycle management to ensure consistent service quality.

◆ Scalable Partner Network

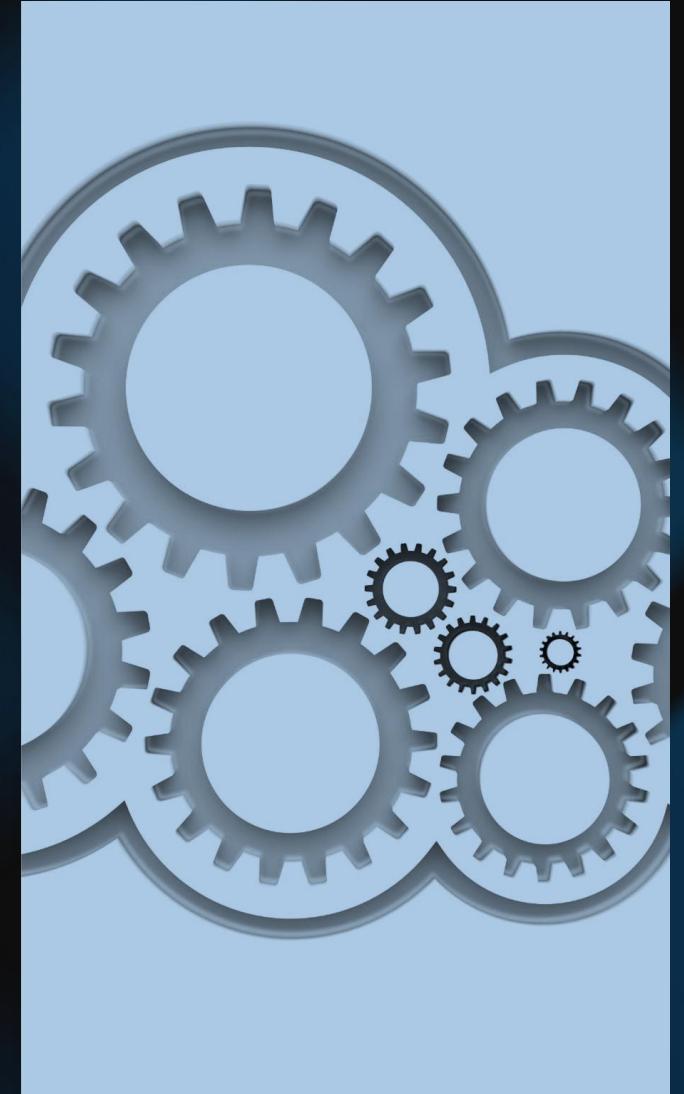

Combining in-house expertise with a scalable co-delivery network enables FMS to support diverse industries and geographies.

◆ Customer-Centric Lifecycle Support

FMS partners with customers through deploy, manage, optimize, and retire stages to maximize technology effectiveness.

◆ Commitment to Innovation

Continuous improvement and technical innovation drive superior outcomes and long-lasting customer relationships.
